PRESIDENT'S MESSAGE

For the first time since the founding of the Fédération Tahitienne de Football (FTF), a women's U-19 national team will participate in a regional competition.

It's taken some time to get here and the member of the Executive Committee and myself are honoured that the FTF has been able to put a true women's football development programme in place.

My personal belief is that football, in all its forms, should be accessible to everyone. It's possible to say that today in Tahiti, that has become a reality especially for women.

In French Polynesia, women can play football, futsal and beach soccer. Each of these three disciplines offers a competitive league to participants and the number of registered players continues to grow.

It is a great pleasure that we also offer opportunities to national teams at U-16, U-19 and senior level.

The young women who will travel to the Cook Islands have worked hard to earn their place in the team, not just at trainings, but also off the field in terms of their nutrition and the sacrifices they've made to balance football and their studies at school.

would like to express our complete support of our women's U-19 team the « Hine Taure'a » for the Oceania qualifiers for the U-20 Women's World Cup which are taking place in the Cook Islands.

We are aware that it won't be easy because we're set to face New Zealand, Oceania's defending champions of the previous six editions, as well as American Samoa and Samoa.

It's our first time participating at this level and our objective is to earn second place in our group, and qualify for the knockout phase.

Yes, football is about aiming high and working hard to achieve that which seems unachievable, and nothing is impossible.

I'd like to reiterate our support of the Hine Taure'a, we wish them all the best in this competition to represent our country with dignity.

Thierry Ariotima
